Subject: Electrolux: Jefferson, Iowa

Cynthia, you are welcome. John's and my understanding is that the additional investigatory work is on schedule, so the Golder team should still be on track to have a report ready in April. Doug

Doug, thank you for your response. We are pleased by Electrolux' commitment to completing the work and implementing a remedy. We concur that Electrolux' remedy can be implemented well before then. We look forward to receiving the report on the work completed so far.

Subject: Electrolux: Jefferson, Iowa

Dear Cynthia:

I am writing on behalf of Electrolux in response to your March 5, 2013 letter.

For the reasons that I have set out numerous times in prior correspondence, Electrolux does not agree that its former Jefferson facility is subject to RCRA corrective action requirements – under EPA's "2020 Corrective Action Universe" or otherwise. That said, as I understand it, the goal of the "2020 Universe" is to ensure that remedy implementation is underway by 2020. I can assure you that it is Electrolux's goal to implement a remedy for the Jefferson property well before then.

If you have any questions about Electrolux's position in this matter, please do not hesitate to let John Heer and me know.

Regards, Doug
